Fortaglas GW 604 Webbing

3512504 Aluminised Glass Cloth

600°C short term use.
150°C continuous.
A heat reflective, impermeable aluminium coating gives good resistance to solvents and corrosive liquids and allows metal to flow off.

- Outer cover of insulation mattresses.
 - Engine protection in sports cars.
 - Radiant heat protection.
 - Corrosive liquid protection for general insulation application.
- 1 metre wide x up to 50 metre long.
