

Motor Shuttle

Long established as a most capable fully enclosed trailer, Motor Shuttle Tri-axle projects a quality, professional image. Prestige vehicle and supercar transportation are the Motor Shuttle's forte and is used in support of many types of motorsport. A lift up rear door, side doors on both sides plus twin front access hatches are standard. All doors are locking. The low loading angle is achieved with a hydraulically operated tilt-bed and a pair of 2.0m aluminium loading ramps.

Internal details abound to keep operation easy and safety a priority.

The full bed is flush fitting and wide enough to accommodate wide sports cars. Secure strapping points are available on both sides of the bed, being easily accessed from both front and rear. The four HD ratchet tie-down straps are a well proven method of vehicle restraint and are trusted to perform without damage to the vehicle.

Motor Shuttle Product code	Load bed length	Load bed width	Gross cap. Kg	Load cap. Kg	Tilt-bed - hydraulic operation	Pair of side doors (1.85m wide)	Winch 2.75 t electric	Remote control wander lead (7m)	Stainless steel body furniture	2.0m Alu loading ramps	Front access hatches	Tie-down wheel straps
MS-T-003	5.38m (17ft 8)	2.1m (7ft)	3,500	2,480	✓	✓	✓	✓	✓	✓	✓	✓ H.D. (4)

Overall trailer dimensions:

OVERALL LENGTH	6.996m (22ft 10)
OVERALL WIDTH	2.30m (7ft 6)
OVERALL HEIGHT	2.59m (8ft 6)
INTERNAL HEIGHT	1.96m (6ft 5) min

Motor Shuttle STANDARD features

- Aerodynamic moulded front and roof
- Multi-element GRP gel coat commercial vehicle body construction. Superb security
- Side access hatches for vehicle tie-down
- Single opening side door on both sides for easy entry, door width 1.8m
- Integral door locks, stainless steel fixtures
- 12v onboard electric winch with remote control. Power pack with charging from tow vehicle
- Hydraulic tilt-bed operation with 2.0m long aluminium loading ramps providing ultra-low loading facility, ideal for sports racers
- 6 wheel auto reverse, overrun operation brakes
- 3,500 kg gross capacity on Tri-Axle running gear. 195/55 R10 tyres provide very low bed height
- Interior lighting (x4)
- Multi-position internal tie-down facility
- 50mm ball coupling head with integral lock
- Integrated modern lighting system to full EEC directives. Rear lamps fully protected
- Flexible mounted rear corner marker lamps
- Stable chassis with low centre of gravity
- Adjustable wheel stop bar
- Fully hot-dip galvanised steel chassis
- Spare wheel / tyre fitted
- 5 YEAR chassis warranty
